

INDEX TO VOLUME 36

Subject entries are made for all articles. Author entries are made for original articles. Book Reviews and Obituaries are indexed under these headings in alphabetical order under the letters B and O, respectively.

- Abdomen:** See Pelvis; Peritoneum; etc.
- Abnormalities and Deformities:** See under names of organs and regions, as Aortic Valve; etc.
- Abcess:** See under names of organs and regions
- Ackerman, L. V.:** Oncocytoma of parotid gland, 508
- Adenocarcinoma** of pyloric end of stomach; consideration of its histogenesis and report of 2 cases, 177
- primary intrapapillary adenocarcinoma** of duodenum, 428
- Adrenal Preparations,** pathologic changes induced in various species by overdosage with desoxycorticosterone, 19
- sudden death** of young athletes with excessive concentration of epinephrine-like substances in heart muscle, 388
- Adrenals, hemorrhage;** fulminating meningococcal infection (Waterhouse-Friederichsen syndrome), 413
- Age, influence of endocrine glands on growth and aging of skeleton,** 512
- Old:** See Old Age
- Air Passages:** See Respiratory Tract
- Alcohol, poisoning by synergistic effect of phenobarbital and ethyl alcohol;** experimental study, 112
- Alcoholism:** See also Liver, cirrhosis
- neuropathology of malnutrition associated with prolonged alcoholism,** 615
- Allergy:** See Anaphylaxis and Allergy
- Amyloid, nature of hyaline changes in islands of Langerhans in diabetes mellitus,** 32
- Anaphylaxis and Allergy, disseminated lupus erythematosus; allergic disease?** 311
- Andersch, M. A.:** Studies on hemolytic streptococcus; comparison of experimental lesions by toxins of streptococcus of scarlatina with those in fulminating scarlatina, 393
- Androgens, experimental atherosclerosis:** effect of testosterone propionate and estradiol dipropionate on cholesterol content of blood and aorta in castrate female rabbits, 612
- Aneurysm, erosive (mycotic) aneurysm of heart with rupture,** 579
- Angiofibroma; chondrosarcoma of nasopharynx simulating juvenile angiofibroma,** 83
- Animals, spontaneous and experimental Encephalitozoon infections in laboratory animals,** 559
- Toxoplasma and Encephalitozoon in spontaneous and in experimental infections of animals;** comparative study, 548
- Antiserum:** See under names of various diseases
- Aorta, experimental atherosclerosis:** effect of testosterone propionate and estradiol dipropionate on cholesterol content of blood and aorta in castrate female rabbits, 612
- incomplete rupture, not followed by dissecting aneurysm;** report of 2 cases, 253; correction, 538
- intimal changes in medial degeneration of,** 201
- Sclerosis:** See Arteriosclerosis
- Aortic Body, structure and histogenesis of tumors of aortic bodies in dogs with consideration of morphology of aortic and carotid bodies,** 1
- Aortic Valve, abnormalities; acquired bicuspid aortic valve with obliteration of commissural raphe,** 602
- Appendix, experimental appendical mucocoele, myxoglobulosis and peritoneal pseudomyxoma,** 297
- Appointments,** 233, 324, 335, 638
- Arey, J. B.:** Nature of hyaline changes in islands of Langerhans in diabetes mellitus, 32
- Aring, C. D.:** Neuropathology of malnutrition associated with prolonged alcoholism, 615
- Arnold, H. L., Jr.:** Chronic granuloma following intradermal injections of typhoid vaccine, 13
- Arteries:** See also Aneurysm; Aorta; Arteriosclerosis; Blood pressure; Embolism; etc.
- embolism from liver tissue in pulmonary artery,** 423
- Arteriosclerosis, experimental atherosclerosis;** effect of testosterone propionate and estradiol dipropionate on cholesterol content of blood and aorta in castrate female rabbits, 612
- experimental atherosclerosis in chick,** 473
- Aschoff Body:** See Rheumatic Fever
- Ashburn, L. L.:** Supersaturated solutions of fat stains in dilute isopropanol for demonstration of acute fatty degenerations not shown by Herzheimer technic, 432
- Atherosclerosis:** See Arteriosclerosis
- Athletics, sudden death of young athlete with excessive concentration of epinephrine-like substances in heart muscle,** 388
- Atrophy:** See under names of organs and regions, as Thyroid; etc.
- Autopsies, autopsy study of cerebral malaria with reference to malarial granuloma,** 550
- changes in thymus with reference to myasthenia gravis; observations in series of 6,000 autopsies,** 371
- Avitaminosis:** See under Vitamins
- Avtain, A. P.:** Conjunctival exanthem in spotted typhus, 158
- Awards,** 123, 324, 638
- Axtmayer, J. H.:** Portal-systemic collateral veins in guinea pig with schistosomal cirrhosis of liver and discussion of congestive splenomegaly, 39
- B C G:** See under Tuberculosis
- Bacilli:** See Bacteria
- Bacteria:** See also under Meningococci; Streptococci; Viruses; etc.
- advantages of egg culture technic in infectious diseases; meningitis; primary isolation of organisms from spinal fluid; culture of spinal fluid during treatment with sulfonamide compounds,** 262
- Barbital and Barbital Derivatives, poisoning by synergistic effect of phenobarbital and ethyl alcohol;** experimental study, 112
- Basophils:** See Erythrocytes
- Beard, D.:** Morphology of Eastern and Western strains of virus of equine encephalomyelitis, 167
- Beard, J. W.:** Morphology of Eastern and Western strains of virus of equine encephalomyelitis, 167
- Biliary Tract:** See Liver
- Blattner, R. J.:** Advantages of egg culture technic in infectious diseases; meningitis; primary isolation of organisms from spinal fluid; culture of spinal fluid during treatment with sulfonamide compounds, 262
- Blood:** See also Erythrocytes; Leukocytes
- cholesterol; experimental atherosclerosis:** effect of testosterone propionate and estradiol dipropionate on cholesterol content of blood and aorta in castrate female rabbits, 612
- experimental studies in cardiovascular pathology; reactions in blood and organs of dogs on intravenous injection of solution of glycogen,** 381
- pressure, high; hypertensive disease of brain,** 289
- sugar; pathology of pancreatic islets,** 217
- Vessels:** See Arteries; Cardiovascular System; Veins; etc.
- Bloom, F.:** Structure and histogenesis of tumors of aortic bodies in dogs with consideration of morphology of aortic and carotid bodies, 1
- Blumenfeld, C. M.:** Studies of normal and abnormal mitotic activity; rate and periodicity of mitotic activity in regenerating epidermis of healing wounds in rabbits, 493

- Bones: See also under names of bones
fragility; osteogenesis imperfecta; anatomic study of case, 211
Diseases: See Osteitis
hereditary multiple exostosis, 335
influence of endocrine glands on growth and aging of skeleton, 512
influence of vitamin D on structure of teeth and of bones of rats on low calcium diets, 243
marrow; calcification in toxic hyperparathyroidism, 51
marrow; Hodgkin's disease; incidence, distribution, nature and possible significance of lymphogranulomatous lesions in bone marrow; review with original data, 627
marrow; undescribed type of erythropoiesis observed in human sternal marrow, 127
- BOOK REVIEWS:
- Air-Borne Infection: Some Observations on Its Decline; D. O'Hara, 236
Allergy, Anaphylaxis and Immunotherapy: Basic Principles and Practice; B. Ratner, 125
Autopsy: Journal of Technical Methods and Bulletin of the International Association of Medical Museums, No. XXIII. Special War Number; R. A. Moore, editor, 125
Biochemistry of Malignant Tumors; K. Stern and R. Willhelm, 538
Diagnosis of Uterine Cancer by Vaginal Smear; G. N. Papanicolaou and H. F. Traut, 124
Epidemiology of Diphtheria During Last Forty Years; W. T. Russell, 436
Frontiers in Cytochemistry: Physical and Chemical Organization of Cytoplasm; edited by N. L. Hoerr, 538
Injuries of Skull, Brain and Spinal Cord: Neuro-Psychiatric, Surgical and Medico-Legal Aspects; B. J. Alpers and others, 124
Irrigación normal del nódulo de Keith y Flack, Tawara, haz de His y sus ramas: Estudio previo de la distribución de los gruesos vasos coronarios cardíacos; E. F. Lascano, 640
Microsurgical and Germ-Free Methods: Their Application to Experimental Biology and Medicine; Symposium; edited by J. A. Reyniers, 124
Principles and Practice of Industrial Medicine; edited by F. J. Wampler, 436
Reaction to Injury: Pathology for Students of Disease Based on Functional and Morphological Responses of Tissues to Injurious Agents; W. D. Forbus, 639
Synopsis of Clinical Syphilis; J. K. Howies, 236
Synopsis of Tropical Medicine; P. Manson-Bahr, 538
White Blood Cell Differential Tables; T. R. Waugh, 639
Whooping Cough; J. H. Lapin, 125
- Books received, 124, 236, 436, 538, 639
- Bosse, M. D.: Hemangioendothelial sarcoma of thyroid gland, 316
Boyle, P. E.: Influence of vitamin D on structure of teeth and of bones of rats on low calcium diets, 243
Utilization of calcium by rats on high protein-low calcium and high carbohydrate-low calcium diets; effect of supplementary vitamin D, 237
Brain: See also Nervous System; etc.
autopsy study of cerebral malaria with reference to malarial granuloma, 550
hypertensive disease of, 289
Brandes, W. W.: Bronchiolar lymphoid hyperplasia as cause of emphysema; report of case, 465
Breck, M. R.: Embolism from liver tissue in pulmonary artery, 423
Breeding center, 123
Breedis, C.: Alkaline phosphatase level in urine in relation to renal injury, 402
Bremer, J. L.: Diaphragm and diaphragmatic hernia, 539
Brines, O. A.: Spontaneous rupture of normal spleen, 163
Bronchi, bronchiolar lymphoid hyperplasia as cause of emphysema; report of case, 465
Brooks, S. M.: Carcinoma which simulates sarcoma; study of 110 specimens from various sites, 144
Bruger, M.: Experimental atherosclerosis; effect of testosterone propionate and estradiol dipropionate on cholesterol content of blood and aorta in castrate female rabbits, 612
Calcification of bone marrow in toxic hyperparathyroidism, 51
Calcium and Calcium Compounds, influence of vitamin D on structure of teeth and of bones of rats on low calcium diets, 243
utilization of calcium by rats on high protein-low calcium and high carbohydrate-low calcium diets; effect of supplementary vitamin D, 237
Cancer: See also Adenocarcinoma; Sarcoma; Tumors; etc.; and under names of organs and regions
carcinoma which simulates sarcoma; study of 110 specimens from various sites, 144
Flaney-Howell Research Foundation, Inc., 535
genetic analysis of induction of tumors by methylcholanthrene; absence of sex influence when large dose of carcinogen is administered, 58
note on so-called undifferentiated and embryonic cells, 190
research at University of Minnesota, 535
Cannon, P. R.: H. Gideon Wells, 331
Carbohydrates: See also Glycogen; etc.
utilization of calcium by rats on high protein-low calcium and high carbohydrate-low calcium diets; effect of supplementary vitamin D, 237
Carcinoma: See Cancer
Cardiovascular System: See also Arteries; Heart; etc.
experimental studies in cardiovascular pathology; reactions in blood and organs of dogs on intravenous injection of solution of glycogen, 381
Carotid Body, structure and histogenesis of tumors of aortic bodies in dogs with consideration of morphology of aortic and carotid bodies, 1
Castration, experimental atherosclerosis; effect of testosterone propionate and estradiol dipropionate on cholesterol content of blood and aorta in castrate female rabbits, 612
Cells: See also Tissue; etc.
mechanism of release of colloid and significance of specific crystalline substance demonstrated in thyroid gland histologically, 587
note on so-called undifferentiated and embryonic cells, 190
studies of normal and abnormal mitotic activity; rate and periodicity of mitotic activity in regenerating epidermis of healing wounds in rabbits, 493
Cerebrospinal Fluid, advantages of egg culture technic in infectious diseases; meningitis; primary isolation of organisms from spinal fluid; culture of spinal fluid during treatment with sulfonamide compounds, 262
Cholesterol, experimental atherosclerosis in chick, 473
in Blood: See under Blood
Chondrosarcoma of nasopharynx simulating juvenile angiofibroma, 83
Colloid, mechanism of release of colloid and significance of specific crystalline substance demonstrated in thyroid gland histologically, 587
Colon: See also Intestines; etc.
diverticula; occurrence in rats which were fed high fat diet, 621
Communicable Diseases: See also Exanthems; Meningitis; Syphilis; etc.
advantages of egg culture technic in infectious diseases; meningitis; primary isolation of organisms from spinal fluid; culture of spinal fluid during treatment with sulfonamide compounds, 262
Conjunctiva, conjunctival exanthem in spotted typhus, 158
extramedullary plasma cell tumors as observed in various locations, 95
Cook, R. A.: Bronchiolar lymphoid hyperplasia as cause of emphysema; report of case, 465
Correction in article by Drs. Wilhelm C. Hueper and Gustav J. Martin entitled "Tyrosine Poisoning in Rats" (Arch. Path. 35: 685 [May] 1943), 126

Correction—Continued

- in article by Drs. William O. Russell and Ernest Sachs entitled "Pinealoma: A Clinicopathologic Study of Seven Cases with Review of the Literature" (Arch. Path. 35:869 [June] 1943), 126
- in statement that Dr. Burrell O. Raulston has been appointed professor of bacteriology at University of Southern California, Los Angeles (Arch. Path. 36:233 [Aug.] 1943), 538
- Cottonseed Oil, experimental atherosclerosis in chick, 473
- Cranium, fibrosarcoma of skull in Paget's disease, 74
- Cysts: See under names of organs and regions
- Dauber, D. V.:** Experimental atherosclerosis in chick, 473
- Davis, D. J., lectureship on medical history, 535
- Death, sudden, of young athlete with excessive concentration of epinephrine-like substances in heart muscle, 388
- Degeneration, nature of hyaline changes in islands of Langerhans in diabetes mellitus, 32
- supersaturated solutions of fat stains in dilute isopropanol for demonstration of acute fatty degenerations not shown by Herxheimer technique, 432
- Dentition: See Teeth
- Desoxycorticosterone: See Adrenal Preparations
- Dhayagude, R. G.: Autopsy study of cerebral malaria with reference to malarial granuloma, 550
- Diabetes Mellitus: See also Blood sugar
- nature of hyaline changes in islands of Langerhans in, 32
- pathology of pancreatic islets, 217
- Diaphragm and diaphragmatic hernia, 539
- Digestive System: See Intestines; Stomach; etc.
- Disodium Formaldehyde Sulfoxylate Diaminodiphenylsulfone: See Tuberculosis
- Diverticula: See under Colon
- Duodenum, primary intrapapillary adenocarcinoma of, 428
- Ulcer: See Peptic Ulcer
- Dwarfism; osteogenesis imperfecta; anatomic study of case, 211
- Dyes: See Stains and Staining
- Embolism** from liver tissue in pulmonary artery, 423
- Emphysema, bronchiolar lymphoid hyperplasia as cause of emphysema; report of case, 465
- Encephalitozoon and Toxoplasma in spontaneous and in experimental infections of animals; comparative study, 568
- spontaneous and experimental Encephalitozoon infections in laboratory animals, 559
- Encephalomyelitis, equine, morphology of Eastern and Western strains of virus of, 167
- Endocardium: See Heart
- Endocrine Glands, influence on growth and aging of skeleton, 512
- Eosinophils: See Leukocytes
- Epinephrine: See Adrenal Preparations
- Erythrocytes, production: undescribed type of erythropoiesis observed in human sternal marrow, 127
- quantitative study of correlation between basophilic degeneration of myocardium and atrophy of thyroid gland, 206
- Erythropoiesis: See Erythrocytes, production
- Estradiol: See Estrogens
- Estrogens, experimental atherosclerosis: effect of testosterone propionate and estradiol dipropionate on cholesterol content of blood and aorta in castrate female rabbits, 612
- genetic analysis of induction of tumors by methylcholanthrene; absence of sex influence when large dose of carcinogen is administered, 58
- Ethyl Alcohol: See Alcohol
- Exanthema: See also Communicable Diseases
- conjunctival, in spotted typhus, 158
- Exostosis, hereditary multiple, 335
- Exudates and Transudates, chemical basis of injury in inflammation, 269
- Fat, necrosis;** abdominal visceral lesions associated with primary disease of liver, 608
- occurrence of diverticula of colon in rats which were fed high fat diet, 621

Fat—Continued

- supersaturated solutions of fat stains in dilute isopropanol for demonstration of acute fatty degenerations not shown by Herxheimer technique, 432
- Feldman, W. H.: Therapeutic effects of disodium formaldehyde sulfoxylate diaminodiphenylsulfone in experimental tuberculosis, 64
- Fellowships, Finney-Howell Research Foundation, Inc., 535
- Felsen, J.: Primary intrapapillary adenocarcinoma of duodenum, 428
- Fever: See Malaria; Typhoid; Typhus; etc.
- Fibrosarcoma of skull in Paget's disease, 74
- Finney-Howell Research Foundation, Inc., 535
- Fisher, C. E.: Quantitative study of correlation between basophilic degeneration of myocardium and atrophy of thyroid gland, 206
- Flory, C. M.: Alkaline phosphatase level in urine in relation to renal injury, 402
- Forensic Medicine: See Jurisprudence, Medical
- Fox, R. A.: Disseminated lupus erythematosus; allergic disease? 311
- Pigmented papilloma of skin, 195
- Friederichsen-Waterhouse Syndrome: See Adrenals, hemorrhage
- Fumigation, fatal methyl bromide poisoning, 505
- Furth, J.: Alkaline phosphatase level in urine in relation to renal injury, 402
- Gastric Ulcer:** See Peptic Ulcer
- Genitals: See also under names of genitals
- nerve tumors of female genitals and pelvis, 437
- Gerber, I. E.: Abdominal visceral lesions associated with primary disease of liver, 608
- Ginsburg, H. N.: Gigantic noncancerous duodenal ulcer, 319
- Glycogen, experimental studies in cardiovascular pathology; reactions in blood and organs of dogs on intravenous injection of solution of glycogen, 381
- Gomori, G.: Pathology of pancreatic islets, 217
- Gonads: See Genitals; Ovary
- Granuloma, autopsy study of cerebral malaria with reference to malarial granuloma, 550
- chronic, following intradermal injection of typhoid vaccine, 13
- granulomatous prostatitis; histologic study of group of granulomatous lesions collected from prostate glands, 358
- Malignant: See Hodgkin's Disease
- Groin, extramammary Paget's disease, 424
- Growth, influence of endocrine glands on growth and aging of skeleton, 512
- Gruenwald, P.: Note on so-called undifferentiated and embryonic cells, 190
- Gumma: See Syphilis
- Hall, C. E.:** Pathologic changes induced in various species by overdosage with desoxycorticosterone, 19
- Hartmann, A. F.: Advantages of egg culture technique in infectious diseases; meningitis; primary isolation of organisms from spinal fluid; culture of spinal fluid during treatment with sulfonamide compounds, 262
- Harvard course in legal medicine, 324
- Heart: See also Cardiovascular System; etc.
- erosive (mycotic) aneurysm of heart with rupture, 579
- quantitative study of correlation between basophilic degeneration of myocardium and atrophy of thyroid gland, 206
- sudden death of young athlete with excessive concentration of epinephrine-like substances in heart muscle, 388
- Hellwig, C. A.: Extramedullary plasma cell tumors as observed in various locations, 95
- Hemoglobin and Hemoglobin Compounds: See Anemia; Blood; Erythrocytes
- Hemopoiesis: See Erythrocytes, production
- Hemopoietic System: See Erythrocytes; Leukocytes; etc.
- Hemorrhage: See Adrenals, hemorrhage
- Herbut, P. A.: Congenital defect in musculature of stomach with rupture in newborn infant, 91
- Fulminating meningococcal infection (Waterhouse-Friederichsen syndrome), 413
- Hermann, H. T.: Experimental appendicular mucocoele, myxoglobulosis and peritoneal pseudomyxoma, 297

- Hernia, diaphragmatic, and diaphragm, 539
 Herxheimer Technic: See Stains and Staining
 Heys, F. M.: Advantages of egg culture technic in infectious diseases; meningitis; primary isolation of organisms from spinal fluid; culture of spinal fluid during treatment with sulfonamide compounds, 262
 Hinshaw, H. C.: Therapeutic effects of disodium formaldehyde sulfoxylate diaminodiphenylsulfone in experimental tuberculosis, 64
 Hodgkin's Disease, incidence, distribution, nature and possible significance of lymphogranulomatous lesions in bone marrow; review with original data, 627
 Hoffman, W. A.: Portal-systemic collateral veins in guinea pig with schistosomiasis cirrhosis of liver and discussion of congestive splenomegaly, 39
 Homburger, F.: Changes in thymus with reference to myasthenia gravis; observations in series of 6,000 autopsies, 371
 Hormones: See Adrenal Preparations; Endocrine Glands; etc.
 Androgenic: See Androgens
 Estrogenic: See Estrogens
 Hueper, W. C.: Experimental studies in cardiovascular pathology; reactions in blood and organs of dogs on intravenous injection of solution of glycogen, 381
 Hypercholesterolemia: See Blood, cholesterol
 Hyperparathyroidism: See Parathyroid
 Hypersensitiveness: See Anaphylaxis and Allergy
 Hypertension: See Blood pressure, high

 Immunity: See Anaphylaxis and Allergy; etc.
 Infants, newborn; congenital defect in musculature of stomach with rupture in, 91
 Infection: See Viruses; and under names of bacteria, as Meningococci; Streptococci; etc.
 Infectious Diseases: See Communicable Diseases; Typhoid; etc.
 Inflammation, chemical basis of injury in, 269
 Inguinal Region: See Groin
 Injuries: See under Kidneys
 Insulin: See Diabetes Mellitus
 Internal Secretion: See Endocrine Glands
 Intestines: See also Colon; Duodenum; etc.
 abdominal visceral lesions associated with primary disease of liver, 608
 primary intrapapillary adenocarcinoma of duodenum, 428
 Intoxication: See Alcoholism
 Irradiation: See under names of diseases and organs
 Islands of Langerhans: See Pancreas
 Isopropanol, supersaturated solutions of fat stains in dilute isopropanol for demonstration of acute fatty degenerations not shown by Herxheimer technic, 432

 Jaffe, H. L.: Hereditary multiple exostosis, 335
 Jetter, W. W.: Poisoning by synergistic effect of phenobarbital and ethyl alcohol; experimental study, 112
 Jurisprudence, Medical: See also Alcoholism; etc.
 Harvard course in legal medicine, 324
 poisoning by synergistic effect of phenobarbital and ethyl alcohol; experimental study, 112

 Katz, L. N.: Experimental atherosclerosis in chick, 473
 Kepl, M.: Multiple myeloma with laryngeal involvement, 321
 Kidneys, alkaline phosphatase level in urine in relation to renal injury, 402
 diseases: studies on hemolytic streptococcus; comparison of experimental lesions by toxins of streptococcus of scarlatina with those in fulminating scarlatina, 393
 pathologic changes induced in various species by overdosage with desoxycorticosterone, 19
 Kirshbaum, J. D.: Fibrosarcoma of skull in Paget's disease, 74
 Koletsky, S.: Acquired bicuspid aortic valve with obliteration of commissural raphe, 602
 Korsakoff Syndrome, neurology of malnutrition associated with prolonged alcoholism, 615
 Krakower, C.: Portal-systemic collateral veins in guinea pig with schistosomiasis cirrhosis of liver and discussion of congestive splenomegaly, 39

 Laboratories, spontaneous and experimental Encephalitozoon infections in laboratory animals, 559
 Toxoplasma and Encephalitozoon in spontaneous and in experimental infections of animals; comparative study, 568
 Laennec's Disease: See Liver, cirrhosis
 Langerhans' Islands: See Pancreas
 Larynx, multiple myeloma with laryngeal involvement, 321
 Lectures, D. J. Davis lectureship on medical history, 535
 Leukocytes, chemical basis of injury in inflammation, 269
 Levinson, E. A.: Undescribed type of erythropoiesis observed in human sternal marrow, 127
 Lillie, R. D.: Supersaturated solutions of fat stains in dilute isopropanol for demonstration of acute fatty degenerations not shown by Herxheimer technic, 432
